

RizePoint's Mobile Auditor App

Customize, Consolidate & Simplify Data Collection

Mobile Auditor is an online-offline application for mobile devices that helps users quickly gather data during audits, inspections, and assessments. From a quick check to a yearly inspection, the app streamlines data collection through process consolidation, leave-behind report generation, bi-directional syncing with the RizePoint platform, and more. Auditors can now ditch binders, spreadsheets, and manual operations for a user-friendly, digital solution that saves time and reduces human error.

Key Benefits

Streamline Audits

Cut the time it takes to complete a yearly audit or inspection in half, limiting burnout while helping auditors do more.

Gain Better Visibility

Seamlessly integrate Mobile Auditor data in the RizePoint platform to build a single source of truth.

Quickly Fix Nonconformity

Trigger immediate corrective action with instant nonconformance notifications, and increase accountability with in-app signoffs.

Align Teams

Leverage Mobile Auditor to administer and review quality audits, schedules, scorecards, and more.

“The advantages of Mobile Auditor — using a tablet for inspection forms, with the ability to document via text and images and automatically generate reports — well, the system sells itself. There’s no going back to Excel.”

Key Features

Gather Better Data. See More Trends. Act Faster to Improve.

Offline Auditing

Boost efficiency with offline auditing, allowing users to conduct audits and inspections at any location globally. Users can sync and store results securely via the cloud when next connected to the internet.

Full Platform Integration

View up-to-date information and glean timely insights via bi-directional syncing with the RizePoint platform. Both auditors and admins will operate with updated info to quickly spot issues and drive improvement.

Easy User Experience

Boost auditor efficiency with features that help users save time. Auditors can easily access in-progress assessments, choose from custom comment libraries, auto skip optional questions, and more.

Easy Report Generation

Save time and eliminate manual data entry with in-app report generation. With a few clicks, auditors can generate audit reports before leaving a location, resulting in faster corrective action.

Media Attachments

Clarify corrective action with media capabilities that allow auditors to attach images, videos, and policy snippets to audit results. This empowers stakeholders to fix nonconformances quickly and properly.

Simplified Scheduling

Streamline communication and reduce confusion and redundancy with in-app list views of auditor schedules. Include travel and location information via the RizePoint platform.

Industry Expertise and Ongoing Value with RizePoint

For over 20 years, RizePoint has been helping top brands worldwide manage their quality assurance, compliance, and supplier quality management. With a strong focus on customers, we actively seek out opportunities to improve your experience, and we're dedicated to consistent product improvements to ensure continued value.
